

# Volunteer Opportunities

*Get involved in the Alamance County Area Chamber of Commerce and get the most from your membership.*

## Help Your Business . . . Help Alamance County

The chamber accomplishes its annual Program of Work through the activities of four divisions: Community Development, Economic Action, Government Liaison, and Membership Development. Each division is led by a volunteer Vice Chairperson and consists of several committees. Serving on a chamber committee is an exceptional and effective way to network with business professionals while helping your business and our community. Committees for 2011 are forming now. Please consider joining one of the 2011 groups and becoming a chamber volunteer.

Below is a listing of the current chamber committees. For an in-depth description of the duties of these groups, please refer to our Program of Work. Each committee is chaired by a volunteer and assisted by a chamber staff member. Please take a moment to indicate your interests below. You will be contacted by either the committee chair or a chamber staff member regarding committee meeting dates and times. Thank you for your interest in the chamber. We look forward to hearing from you.

### Economic Action

- Industrial Personnel Managers Committee
- Sports Development Council
