

Leadership Alamance Nomination Form

The quality of the participants is the primary strength of Leadership Alamance. Each year approximately 25 diverse students representative of the public, private and civic sectors of the community are selected for the program. They must display leadership potential and express commitment to learn and effect change in the community. Participants must have full support of their employer or sponsoring organization. Students are required to devote a minimum of two days for a fall retreat and the third Thursday of each month from September through May. Prior to each session day, students must complete a prerequisite determined by the steering committee. Before graduation day, students must complete a class project determined by their fellow classmates. Those who are unable to make the entire time commitment should not be nominated. Fax nomination forms to the Chamber at 336-228-1330 by Friday, June 25, 2010.

Nominee _____
